Available immediately | Open to roles anywhere in Thailand (Bangkok, Chiang Mai, Pattaya) | Intend to reside long-term in Thailand | Non-B visa & Work Permit sponsorship required

SUMMARY

Full-stack developer (5+ years) specializing in Java/Spring and TypeScript (React/Node). I build cloud-native microservices and modern web/mobile apps, modernize legacy systems, and ship reliably with CI/CD and observability. Experienced with payments (Stripe/RevenueCat), i18n, and GDPR. Available immediately and aiming to live and work in Thailand (Bangkok/Chiang Mai/Pattaya).

CORE COMPETENCIES

- Java Spring & TypeScript microservices
- Cloud & DevOps (Docker/Kubernetes, Azure, CI/CD)
- Modern frontend (React/Next.js, Vue, React Native)
- System design & performance tuning
- Agile collaboration & stakeholder communication

PROFESSIONAL EXPERIENCE

IT Consultant

07/2022 – Present

Lufthansa Industry Solutions (Hamburg, Germany)

- Developed and maintained multiple software solutions within a 15-person team, including:
 - Centeract: Digital assistant system for aircraft maintenance
 - SmartBookingAPI: Lufthansa Cargo API providing digital booking connectivity
 - EDI: Electronic Data Interchange interface between Lufthansa Cargo and suppliers to automate booking processes
- Designed and implemented microservice architectures with Java Spring Boot and TypeScript/Node.js.
- Increased development efficiency by introducing DevOps practices.
- Established comprehensive monitoring with Grafana/Prometheus.
- Led technical alignment with stakeholders and produced detailed requirements analyses and technical documentation.

Software Developer

07/2020 – 06/2022

Inmed GmbH (Hamburg, Germany)

- Developed various web portals, including the “Rehabilitation Monitoring System”, successfully deployed in 300+ clinics.
- Analyzed and enhanced a legacy Java Swing GUI to prepare migration to modern, responsive frontend technologies.
- Improved application security by implementing 2FA, reducing security incidents.
- Built responsive designs and internationalization for multilingual UIs (supporting 4 languages).

- Designed and delivered comprehensive trainings for international user groups.

SKILLS

Technical

- **Backend:** Java (Spring Boot/Cloud), Node.js/Express (TypeScript), REST, WebSocket, Microservices
- **Frontend:** React, Next.js, Vue.js, React Native, HTML5/CSS3, Thymeleaf
- **Databases:** PostgreSQL, MongoDB, Redis, ORM frameworks
- **Infrastructure & DevOps:** Docker, Kubernetes, Azure, GitLab CI/CD, Jenkins, Grafana, Prometheus, ELK
- **Testing:** JUnit/Mockito, Playwright, Jest/Vitest, TDD

Personal

- Clear technical communication to management and customers
- Teamwork across time zones; proactive problem-solving & performance/security improvements
- Fast onboarding to new tech; flexible across projects

PERSONAL PROJECTS

US LLC Services — US LLC Formation Platform (Founder & Product Architect)

www.us-llc.services

- Platform for DACH founders to form a US LLC 100% remotely: formation wizard, customer dashboard, admin console, and Stripe payments.
- GDPR-aligned operations with scalable SaaS + Service workflows. *Stack: Spring Boot, React/Next.js, PostgreSQL, Docker/Azure, Stripe*

Thai Alphabet App — iOS Educational App (Solo Developer)

www.thaialphabet.app | [TestFlight](#)

- Teaches Thai alphabet with structured lessons, audio, and practice tools; subscriptions via RevenueCat.
- End-to-end ownership: UX/UI, payroll, build/release (EAS), QA, and App Store readiness. *Stack: React Native (Expo), TypeScript*

Thailand Healthcare — Founder & Product Architect

www.thailandhealth.care

- Bilingual platform connecting DACH patients with Thai clinics: role-based access, lead/offer management, scheduling, documents, and messaging.
- Drove product, architecture, and compliance (GDPR) end-to-end. *Stack: Java/TypeScript, React, PostgreSQL, Redis*

Vending Machine Finder App (iOS, Android, Web)

- Cross-platform app mapping vending machines in Tokyo with authentication, payments, and community features. *Stack: Expo (React Native), Next.js, Spring Boot, Supabase, PostgreSQL, Redis*

LANGUAGES & CERTIFICATIONS

Languages: German (native), English (business fluent, C1), Thai (basic, A1)

Certifications:

- Microsoft AZ-204 (01/2023) — Developing Azure cloud solutions [\[See Credly\]](#)
- Cisco CCNA (03/2021) — Networking fundamentals, routing & switching
